

Southern Regional Technical College
&
University of Phoenix

Bachelor of Science in Nursing

Start Date: September 18, 2018

RN to Bachelor of Science in Nursing (BSN)

WE RISE

Increase your knowledge, increase your career opportunities and be the nurse tomorrow needs for only \$350 per credit hour

As healthcare practices and standards of care continue to advance, those working in the field are being called upon to continually update their knowledge and skills to keep pace.

The University of Phoenix[®] **RN to Bachelor of Science in Nursing (BSN)**^{*} degree program will enable you to gain not only the credential you need to remain competitive in the job market, but also the up-to-date knowledge and skills you need to provide the best possible care for your patients.

Get a head start on a future graduate degree

Through our **Nursing Pathway Program**, you will have the option of taking approved graduate-level courses while you complete your bachelor's degree program. The courses will apply to both your bachelor's and master's degrees in nursing — giving you a head start on credits to apply toward a future MSN degree.

What you'll study:

- **The roles that nurses play** as practitioners, researchers and leaders — and how critical thinking, clinical judgment, professional values, ethics and accountability impact those roles
- **Evidence-based practice** in the nursing professions — including the key elements of a research design, how to formulate a research question and best practices for data collection and interpretation
- **Quality improvement** in healthcare settings, including legislative mandates regarding quality, and the role that nurses can play to ensure patient safety and improve healthcare outcomes
- **Electronic systems** for data collection and analysis in healthcare, and how these systems support patient-centered, quality healthcare
- **Public health**, including global epidemiology and disease prevention as well as local community health, and the role that nurses can play in preventative care and health promotion
- Participation in a **final capstone course** in which you will integrate and synthesize what you have learned throughout your previous courses into a final leadership project

* This program is a post-licensure education program designed for nurses with current RN licensure who wish to obtain a bachelor's degree in the field of nursing.

Benefits of being a Phoenix:

- Tuition is just **\$350 per credit hour** and guaranteed until you graduate, even if it takes longer than you expect!
- Average class size of **14 students**
- College of Health Professions instructors with an average of **21.7 years of professional experience**
- **Block Transfer of Associate Degree Credits** means you take no additional general education courses in the BSN, possibly shortening your program length.
- **Potentially accelerating your career opportunities**
- Access to the **Phoenix Career Guidance System™** to help you identify career options and develop the skills and connections to help you achieve your goals
- **Flexible options** — including on-campus as well as online courses — enabling you to pursue your education without sacrificing your personal and work commitments

Our curriculum is designed to align with leading industry organizations, such as:

- American Association of Colleges of Nursing (AACN)
- American Nurses Credentialing Center (ANCC)
- Quality & Safety Education for Nurses (QSEN)

In addition to general education coursework, core courses are:

NSG 302
Professional Contemporary Nursing
Role and Practice

NSG 416
Theoretical Development and
Conceptual Frameworks

HSN 376
Health Information Technology
for Nursing
