Alfred L. Jones, M.S.Ed., R.T.(R)
Radiography Program Director
Southern Regional Technical College - Moultrie
800 Veterans Parkway North
Moultrie, GA 31788

RE: Program #0435

Dear Mr. Jones:

The accredited program in radiography sponsored by Southern Regional Technical College - Moultrie is scheduled for reevaluation within the next twelve months. The Joint Review Committee on Education in Radiologic Technology (JRCERT) is responsible for the evaluation of programs in accordance with the **Standards for an Accredited Educational Program in Radiography (2014)**. The JRCERT is the only agency recognized by the United States Department of Education (USDE) and the Council for Higher Education Accreditation (CHEA) for the accreditation of traditional and distance delivery educational programs in radiography, radiation therapy, magnetic resonance, and medical dosimetry. Accordingly, the JRCERT is responsible for all accreditation actions.

Upon completion of the continuing accreditation process, the JRCERT will determine an accreditation status based on the self-study report, the site visit team findings, the program's response to the report of findings, and other documents and correspondence related to the reaccreditation process.

When requested, the JRCERT attempts to facilitate concurrent site visits of multiple JRCERT-accredited educational programs sponsored by a single institution. The coordinated site visit provides for a single review of shared administrative services and resources while assuring that programmatic site visitors, with experience in their respective professional discipline, retain responsibility for evaluating components unique to a particular program. [Click here](#) for a full review of JRCERT Policy 10.500 - Conducting Concurrent Site Visits.

The program is required to submit its continuing accreditation self-study report and all supporting documentation via the JRCERT Accreditation Management System (AMS) portal. If your program currently offers a distinct distance, evening, part-time, and/or weekend curricular track, you must write the self-study to reflect the traditional and alternative curricular tracks. There is abundant information under the *Portal Helps* tab on the JRCERT Web site, [click here](#), to help you navigate and use the system.

The following schedule for the continuing accreditation process is established:

Self-Study Report Due:	October 4, 2017
On-site Evaluation:	April 2018

Consistent with JRCERT policy, programs will be assessed a fixed rate for the site visit. This will include all travel-associated expenditures. The program will be responsible for the arrangement and cost of hotel accommodations. Additionally, the program is responsible for all site visitor transportation during the on-site visit. The fixed site visit fee is \$900.00 per site visitor and must be received in the JRCERT office prior to the site visit. Typically, the JRCERT assigns a minimum of two (2) site visitors per team; however, the JRCERT will assign a three (3) member team if the program has thirty (30) or more clinical settings or more than seventy-five (75) students enrolled in the program.

Once a preliminary review of the self-study report has been completed, the program will be invoiced for the continuing accreditation fee and the fixed site visit fee. The JRCERT fee schedule can be found [here](#).

Following a full review of the self-study report, the JRCERT will forward a Site Visit Scheduling Form via e-mail to allow the program to request acceptable dates and provide other information regarding the site visit. The JRCERT will not schedule an onsite evaluation if the program has an outstanding balance associated with the continuing accreditation fees.

If the program has discontinued or plans to discontinue within the next twelve months, written notification signed by the sponsoring institution's Chief Executive Officer, indicating a specific date for program closure, is required. The JRCERT would appreciate the program providing the rationale for this action. We advise you to contact the office if you have specific questions regarding the closure of your program.

If you have any questions, or require assistance in completing the documents or guidance in developing the self-study report, do not hesitate to contact the JRCERT office.

Sincerely,

Jay Hicks, Ed.D., R.T.(R)
Executive Associate Director
