SRTC was recognized as a fully accredited institution at that time, and an On-Site Substantive Change Committee was authorized to occur November 16-19, 2015. The results of the Substantive Change Committee's report were taken under consideration by the SACSCOC Board of Trustees at their June 2016 meeting, and on June 16, 2016, it was announced that SRTC was granted continued accreditation.

Respiratory Care: SRTC-Thomasville	<p>The next Respiratory Care class will begin fall semester, August 2017, pending approval of the Letter of Intent (LOI) for accreditation by the Commission on Accreditation for Respiratory Care (CoARC). Because the program was below the threshold of 80% for credentialing success on the Certified Respiratory Therapist (CRT) credential, for the three-year average (2011, 2012, 2013), the program was placed on probation by CoARC. Upon review of the first year of probation, the three-year average for the above cohorts remained below threshold. Therefore, the program submitted an application for voluntary withdrawal of accreditation, effective February 8, 2016. The December 2016 graduating class and all former graduates are eligible to sit for the NBRC examinations. Program applicants are encouraged to continue working toward the completion of all general education courses, and meeting with the program advisor(s) routinely to maintain communication during this transitional period.</p> <p>If you have additional questions, please contact Tammy Miller at tmiller@southernregional.edu or at 229.225.5094.</p>
