## Student Organizations and Club Accounts

Revised:

Last Reviewed: May 23, 2025

Adopted:

### I. PURPOSE:

Student organizations should promote the students' general welfare, education, and morale and finance the normal, legitimate activities of the student body organizations. Funds associated with student organizations should be used to support activities that are based in the student organizations. Students should not only participate in the organization's activities but also be involved in managing and directing the organization's activities.

This policy aims to establish financial controls for the administration of the routine, extracurricular activities of the student organizations, which promote the general welfare, education, and morale of all students.

The Technical College President or designee must approve each student organization. In addition, the faculty or staff member assigned to the student organization/club must be identified by the organization/club annually in writing to the President of the Technical College.

All club funds shall be accounted for by the college business office and recorded in the college's financial records unless prohibited by the guidelines established by the National or State Association associated with the club.

The Commissioner or their designee must approve exceptions. The college must submit appropriate documentation with their exception request. This documentation may include but is not limited to the organization's mission, financial responsibilities, bylaws, etc.
